

Dear parents and patients,

we are glad to be able to offer you an appointment in the SPZ Schöneberg! The current situation asks for certain precautions and procedures for your safety and our own:

- Please take your temperature and the temperature of your child at home before coming to us. In case of fever please stay at home
- If you yourself or your child have an infection or fever or either one of you had contact to somebody tested positive for Coronavirus or with somebody with a possible infection with Coronavirus, it is not permitted to enter our center
- Before entering our center please fill out a short questionnaire concerning infectious risks
- It might be necessary for us to take your temperature or the one of your child
- Your child may be accompanied by one parent only, siblings are unfortunately not permitted right now
- After entering our center, we kindly ask you to wash your hands and the hands of your child with warm water and soap for at least 30 seconds; a hand disinfection might be necessary
- Please bring a face mask for yourself and for your child (children 6 years and older)

We try to make every possible effort to offer the highest possible standards of hygiene at our center in order to minimize any infectious hazards. It is of great importance to us, however, that you and your child will be met by a family-friendly atmosphere when coming to us in order for you to feel comfortable. It could be helpful for you to prepare your child that we will be wearing face masks and that you have to undertake the above-mentioned measures.

Thank you for your understanding!

We are looking forward to your visit!

Dr. Regina Guttenberger (doctor in charge) and the SPZ-Team
